Federal Communications Commission

Dear Members of the FCC,

I write to request the FCC support net neutrality by supporting by classifying broadband telecommunications firms under Title II. Internet neutrality is central to the success of the internet, and I believe it is crucial the FCC defend that neutrality moving forward. There have already been instances of telecommunication firms preferring some services over others, and with recent consolidations of telecoms with entertainment companies, opportunities to abuse customers is only increasing. Please back net neutrality.

If you have any further questions regarding my application or need any additional information, please do not hesitate to contact me (nickeubank@stanford.edu). Thank you very much for your time and consideration.

A handwritten signature in blue ink that reads "Nick Eubank".
